A WORD FROM YOUR COUNTY AGENT:

Just like that, Thanksgiving has ended and now we are getting closer to the first day of winter. Our office will be closed from December 26th-January 2nd in observation of Christmas and New Year's. As we are nearing the end of 2022, I am thankful for the support I've received over the last year of being a new agent. I am looking forward to what 2023 brings and continuing to serve our community.

December Monthly Tips

- Graze pastures with orchardgrass and clovers first.
- Make plans to frost seed red and white clover onto closely grazed tall fescue pastures in February.
- Strip grazing using temporary polywire fencing can extend grazing days by up to 40%

Tips from 2022 Kentucky Grazing Calendar

Small Ruminant Tips- Winter Feeding Program

- Provide mineral and fresh water at all times.
- Dry does/ ewes- Non-lactating females that are open or in early gestation should have access to medium quality hay.
- Late gestation does/ ewes- late gestation females need access to high quality hay and will likely need some concentrates as lambing/kidding approaches.
- Nursing lambs/kids- young kids and lambs should have access to creep feed by 7 days of age.
- Market prices for all sheep and goats should be on the rise as supplies decrease and demand peaks.

Please Note:

The above USDA LPGMN price report is reflective of the majority of classes and grades of livestock offered for sale. There may be instances where some sales do not fit within reporting guidelines and therefore will not be included in the report. Prices are reported on an FOB basis, unless otherwise noted.

Explanatory Notes:

Stage (Cattle) - Represents pregnancy stage (O = open; T1 = 1st Trimester, 1 to 3 months; T1-2 = 1st/2nd trimester, 1 to 6 months; T2 = 2nd Trimester, 4 to 6 months; T2-3 = 2nd/3rd Trimester, 4 to 9 months; T3 = 3rd Trimester, 7 to 9 months; T1-3 = all trimesters, 1 to 9 months)

Age - Numerical representation of age in years.

The Winter Outlook

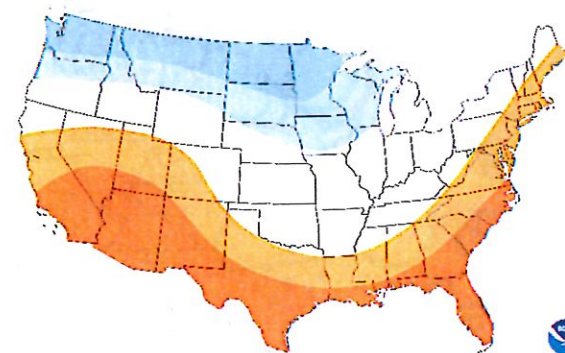

Derrick Snyder – National Weather Service, Paducah, KY

As the leaves change colors and fall to the ground, crops are harvested, and tendrils of frost form on plants, conversation often turns to what the coming winter will bring. As we have seen, winter in Kentucky can bring a bit of everything, from ice and snow to flooding to bitter cold - even severe weather. Given how variable the weather during the winter can be, is it possible to predict what will happen? Many of us have heard homespun wisdom about ways to predict what an upcoming winter will bring. Some of the more popular ones include how dark the hair of a woolly worm is in the fall, the shape of the seed inside of a persimmon, and counting the number of morning fogs in August. An office of the National Weather Service called the Climate Prediction Center also releases an outlook for the upcoming winter during autumn.

The winter outlook made by the Climate Prediction Center covers the months of December, January, and February. It is not possible to give a day by day forecast of what will happen, but it is possible to forecast whether a region will see a greater chance of above or below normal temperatures and precipitation (rain and melted snow and ice). If there is not a strong signal either way, the outlook will say that a region will have an equal chance of seeing above, below, or near normal temperatures and precipitation. It is important to remember that these outlooks cover a three month period. Periods of cold weather can occur when above normal temperatures are favored, and the opposite can happen when below normal temperatures are favored. The same rule also applies for precipitation.

For Kentucky, there was not a strong enough signal to forecast above or below normal temperatures during this upcoming winter, so the entire state has an equal chance of seeing above, below, or near normal temperatures. For precipitation, the northern portion of the state slightly favors above normal precipitation, while the rest of the state has an equal chance of seeing above, below, or near normal precipitation. How will this play out over the winter? – We shall have to wait and see!
